

VERLANGEN | DESIRE

www.luycksgallery.com

On Sunday, 3 January 2010 from 4.00 to 6.00 p.m., Luycks Gallery will host the official opening of 'verlangen I desire', an exhibition of recent works by Jan Doms.

This autumn, press reviews of his retrospective exhibition at Eindhoven Technical University's architecture faculty lauded Doms as

a 'versatile artist of many talents'. The work on display in 'desire I verlangen' certainly supports this qualification. In addition to striking sculptures and poetic drawings, his extraordinary body of work includes a series of remarkable architectural designs. The exhibition will be prefaced by a short film by the Other Horses art collective.

We would be honoured with your presence. The exhibition will be open through 7 February 2010.

On Thursday, 21 January [from 8.00 - 10.00 p.m.] the gallery will host a special film night themed around the relationship between Doms' work and Russian avant-garde art. We would recommend that you make a reservation via info@luycksgallery.com
